LACK OF EQUIPMENT HOLDS UP  
SOSA DAM CONSTRUCTION

An appeal is made to workers for immediate aid in the procurement of an electric winch and wire cable which are needed for uninterrupted construction of the Sosa Dam. Specifications for the desired items are as follows:

Electric winch, with centrifugal governor and control gear with inner brake shoes, directly coupled, with three-phase current motor of 50-60 kilowatts, having 3,500 kilograms' minimum carrying capacity, 1.2-1.5 meters per second lifting speed, and 2.1-2.5 meters per second lowering speed. One hundred thirty meters, 20-24 millimeters in diameter, of the wire cable are needed.
